CURRENT POSITION

Oct.1997–till date Apollo Cancer Institute N.Delhi, INDIA

**1. *Sr. Consultant Surgical & Clinical Oncology & Coordinator,
Head of Surgical Unit I***

Apollo Hospital is a 600 bedded corporate state-of-the-art multispeciality tertiary care centre catering to not only India, but other countries in the Indian sub continent. It is equipped with the latest technical Infrastructure and has perhaps the finest manpower this side of the world. Oncology is one of the busiest services existing and has an efficient hospital based tumour registry.

I head an independent Surgical Oncology Unit aided by 2 senior consultants, 1 Associate Consultant, 2 post-graduate senior residents, 2 junior residents, oncology nurses and co-ordinators. Efficient coexistence with medical oncologists, haemato oncologists, and radiation oncologists ensures world class treatment, often in consultation with and endorsed by our colleagues at Memorial Sloane Kettering Cancer Centre, New York, M.D. Anderson Cancer Centre, Houston Texas and Royal Marsden Cancer Hospital, London. Our unit is a model of long distance treatment and learning (telemedicine) and maintains an upto date cancer registry.

Dec 2011–till date Artemis Cancer Institute N.Delhi, INDIA

2. *Director, Surgical Oncology*

I am responsible for planning and initiating oncology services in this private hospital in Gurgaon.

July–2011-till date Cancer Centenary Centre N. Delhi, INDIA

2. *Director, Cancer Centenary Centre*

Jan.1998–till date Kashmir Nursing Home, Srinagar, J&K, INDIA

3.Sr.Consultant Surgical & Clinical Oncology

Jan.1998–till date J&K Government J&K, INDIA

4.Oncology Adviser

I am responsible for the entire planning of oncology services in this beautiful northern most state of India.

Jan.1998–till date

5. Adviser

Anti Smoking' and 'Anti Tobacco' Expert for American Cancer Society
- Star Television, NDTV, D.D. Metro Channel & Zee Television.

Jan. 2003–till date Government of Mauritius MARITIUS

6.Oncology Adviser

April2009–till date Apollo Bramwell Hospital MARITIUS

7. Visiting Consultant Surgical & Clinical Oncology

8. President, Breast Cancer Patients Benefit Foundation

Probably India's most wellknown NGO working in the field of cancer treatment for the economically unsound

9. Director, Health Eon Pvt Ltd

Recently initiated group dedicated to providing oncology solutions for healthcare providers

PAST POSITIONS

April 1995-99 Batra Hospital & Medical Research Centre India
Consultant Surgical and Clinical Oncologist

Batra Hospital is a 290 bedded state of the art multispeciality tertiary care centre catering to Northern India. Division of Oncology comprising 3 Surgical Oncologists, 2 Radiation Oncologists and 1 Haemato-Oncologists and 6 Senior and Junior Residents, is one of the Busiest specialities offering comprehensive services of the highest order, to vast numbers flocking to the Outpatient's department.

I head an independent Surgical Oncology Unit aided by two post graduate Senior residents, dealing with all type of cancers. Availability of Frozen section diagnosis, Cytopathology, Brachytherapy and Tumor marker analysis renders precision and makes it possible to offer quality Conservative Oncological resections. Efficient Interaction exists with Neurosurgeons, Orthopaedicians and Reconstructive Surgeons in order to perform highly complex ablative and restorative procedures. Courteous counselling, the concept of kind palliation and appropriate use of occupational therapy are some of the features worthy of mention.

EXPERIENCE

Sep. 1993–April 1995 Batra Hospital & Medical Research Centre
Senior Resident Surgical Oncologist N. Delhi, India

- It was my responsibility to conduct outpatient services, operating schedules and care for a substantial inpatient's material with the help of other junior colleagues. Weekly case presentations, death courts, and research work were some of the activities worth mentioning.

Nov. 1992–Mar. 1993 Royal Marsden Hospital London, UK

Commonwealth Fellow

- The job involved participation in comprehensive management of head and neck cancers at a Senior Registrar (N.H.S.) level. I was exposed to a wide range of complex ablative and reconstructive procedures. Attendance and contribution to weekly case discussions, unit audits, and journal club meetings was mandatory.

Jul. 1992–Oct. 1992 Luton & Dunstable Hospital
Clinical Attachment Bedfordshire, UK

- Apart from insight into routine General Surgical work at a district general hospital level, I gained specific experience in the management of early breast cancer at the Regional Breast Screening Service and an active participation in Laparoscopic surgery.

Jul. 1991–Oct. 1991 B. Nanavati Hosp. & Medical
Registrar in Oncology Reserch Centre, Mumbai, India

Aug. 1990–Jan. 1991 Tata Memorial Hospital Mumbai, India
Postgraduate Student in Head & Neck Surgery

Feb. 1990–Aug. 1990 King Edward VII Memorial Hospital
Postgraduate Student in Head & Neck Surgery Mumbai, India

Aug. 1988–Jan. 1990 B.N. Hosp. & Medical Reserch Centre
House Surgeon in General Surgery Mumbai, India

Feb. 1988–Jul. 1988 Tata Memorial Hospital Mumbai, India
Postgraduate Student in Head & Neck Surgery

Jun. 1987–88 K.N.H. Shere Kashmir National Medical
Resident Medical Officer Institute Trust, J&K, India

Jan.1985–Jun.1987 J&K Health services J&K, India
Assistant Surgeon in General Surgery

Jan.1985–Jun.1987 S.M.H.S. Hospital Kashmir J&K,India
House Surgeon in General Surgery

Oct.1983–1984 Govt. Medical College & Associated
Internship Rotation Hosp.Kashmir J&K, India

- All above posts in India are recognised by the Medical Council of India as teaching posts for Higher Surgical Training (M.S. General Surgery).
- Experience afforded from these posts includes management of In-patients, out-patient work, cold & emergency operating and undergraduate teaching, all relevant to the appropriate specialty.

STATEMENT OF OPERATIVE ABILITY

Head And Neck Surgery

- Scalene node biopsy
- Tracheostomy
- Branchial cyst excision
- Drainage of Parotid abscess
- Sistrunk's operation
- Submandibular gland excision
- Common and External carotid ligation
- Modified, functional and radical neck dissections
- Wide field laryngectomy
- Hemiglossectomy
- Tongue, Buccal mucosa and alveolus Commando's
- Excision of carotid body tumor
- Thyroidectomies
- Superficial Parotidectomy
- Partial 2/3rd laryngectomy
- Laryngopharyngoesophagectomy
- Radical parotidectomy
- Total maxillectomy
- Craniofacial resection

Thoracic / Cardiovascular Surgery

- Resection anastomosis of L 1 /3rd oesophagus
- Ivor Lewis Procedure
- Excision of pharyngo-oesophageal diverticulum
- Closed mitral valvotomy
- Excision of hydatid cyst of lung
- Trendelenberg ligation and Myer's stripping (varicose veins)
- Oesophagocoloplasty

- Total oesophagectomy
- Pneumonectomy
- Lobectomy
- Mediastinal lymph node dissection
- Laparoscopic cervical sympathectomy

Gastrointestinal Surgery

- Gastrostomy
- Jejunostomy
- Truncal vagotomy and drainage
- Closure of duodenal perforation
- Resection anastomosis of small and large bowel
- Appendicectomy
- Colostomy - fashioning and closure
- Right hemicolectomy
- Cholecystojejunostomy
- Cholecystectomy Open and Laparoscopic
- Choledochostomy
- Cystogastrostomy
- Excision of hydatid cyst of liver
- Partial gastrectomy
- Total Gastrectomy
- Haemorrhoidectomy
- Perianal fistulectomy
- Recamier's procedure
- Combined Synchronised excision of rectum
- Anterior Resection
- Total proctocolectomy with ileo-anal J-Pouch anastomosis
- Right hepatectomy
- Whipple's operation
- Retrograde Pancreatojejunostomy
- Puestow's operation

Soft Tissue and Bone Surgery

- Excision of lipoma, sebaceous cyst, fibroadenoma.
- Modified radical mastectomy
- Complete Halsted
- Conservative breast excisions
- Muscle group excision
- Symes Amputation
- Above and below knee amputations
- Hip disarticulation
- Interscapulothoracic amputation

Genitourinary and Obstetric Surgery

- Nephrostomy
- Pyelolithotomy
- Nephrolithotomy
- Radical Nephrectomy
- Suprapubic cystostomy
- Ureterolithotomy
- Freyer's prostatectomy
- T.U.R.P. and T.U.R.B.T
- Wertheim's Hysterectomy
- Panchysterectomy with omentectomy
- L.S.C.S.
- Partial & total amputations of penis
- Operations for vaginal hydrocele
- Orchidectomy
- Radical Vulvectomy
- R.P.L.N.D.
- Total cystectomy with ileal conduit
- Millin's prostatectomy
- TURP and TURBT
- Ureterovesicostomy

Gastrointestinal Surgery

- Gastrostomy
- Jejunostomy
- Truncal vagotomy and drainage
- Closure of duodenal perforation

Plastic Reconstructive Surgery

- Z-plasty scar revision
- Skin grafting
- Pectoralis major myocutaneous flap
- Bakamjian's flap
- Estlander's flap
- Abbes's flap
- Osteomyocutaneous Vth rib flap for head & neck reconstruction
- Latissimus dorsi myocutaneous flap for breast reconstruction
- Restitution mammoplasty with rectus abdominis flap
- Microvascular free radial forearm flap
- Microvascular free jejunal interposition
- Microvascular reimplantation of digit

Trauma Surgery

- Burr hole, Trephine
- Exploratory laprotomy for abdominal trauma
- Exploratory thoracotomy for chest trauma
- Splenectomy

Paediatric Surgery

- Circumcision
- Herniotomy
- Orchidopexy
- Diaphragmatic hernia repair
- V.P.Shunt and Meningomyelocele repair
- Surgiara Futagawas's procedure

- Operation for T-O fistula
- Hypospadias repair
- Repair of exstrophy of bladder
- Svenson's operation
- Pena's operation

▪

Endoscopies

- Direct laryngoscopy rigid
- Nasopharyngoscopy fiberoptic
- Oesophagogastroduodenoscopy
- Bronchoscopy
- Cystopanendoscopy
- Sigmoidoscopy
- Laparoscopy

Miscellaneous Procedures

- Bassini's herniorraphy
- Mesh hernioplasty
- Shouldice herniorrhaphy
- Stoppa's G.V.R.P.S.

ONCOLOGICAL PIONEER

Initiated and popularized the use of 'ports' for cancer patients in India. Largest number of ports to his credit in Asia. Made a tremendous impact on cancer treatment particularly among children.

Introduced in India the concept of primary reconstruction for breast cancer patients.

Introduced and popularized the use of latest technology of Radiofrequency Ablation to treat liver, lung breast tumors in India.

WORKSHOPS AND CONFERENCES ORGANISED
